Two years ago a quiet little town in the northwest corner of the province was a quiet little town. Now it is a reality. It is a place where citizens are charged with the task of making a new town out of the ruins of the old. It is a place where the future is being built on the ruins of the past. It is a place where the future is being built on the ruins of the past.

Dear Mr. Wheat Grower:

"A BIG STEP AHEAD FOR THE FARMING INDUSTRY"

The heading is in fact, as the Federal-Provincial "All-Risk" Crop Insurance is offered this year in your area.

Twenty-four hours a day, year after year, your crops take an awful beating if conditions are not right—scurched by the sun, frozen by the cold, lashed by torrents of rain, biting winds, the ravages of hail, more, drought, insects, rust, aphids, army worms, wildlife, and fifty other natural causes that our breed the yield, causing you a loss on the year's operations which could set you back five years.

Crop losses are a certainty. The only question is—Whom Crops? By joining the Alberta "All-Risk" Crop Insurance, you are protected by the most important part of your crop. Your investment is protected. If your crop is damaged or destroyed you can be sure that you will receive compensation to put out another crop next year. There is NO OTHER insurance available today which provides the "All-Risk" protection that the Alberta "All-Risk" policy does.

Remember, the premiums you pay are AT COST. Contact your Agent, who is a neighbor of yours. He will explain this and all the benefits of Crop Insurance.

Join the many thousand Canadians. Be a loss-minded farmer.

THE PLAN IS FOR YOU!

The sculpture group, by the end of next month 100 percent that are the responsibility of the Expo Corporation, will be completed. This will leave only a more it is to be used the living extension on the east side of the building.

HONOR TO THOSE FOR WHOM HONOR IS DUE

At the annual banquet and meeting of the Bashaw and District Chamber of Commerce to be held at the hotel on the 24th, it is hoped to honor a number of men of the community who have been in business here over a period of fifty years. In addition the list is one which is to be a help to carry on from year to year until the older businessmen have been honored.

Too often many communities have through nearly a century of neglecting that it was the early efforts of those kind of men, who brought trade and business, and comfort to this kind of community. It was, in the first place, largely through their vision and determination that the area expanded and grew. It was sometimes the little spark of initiative and energy that they displayed, and which helped in later years to bring into being many things that have been dreamed.

Their example when they were in business ought to be a source of inspiration to the effort they had originally made were carried on to this day.

EASTER HONOR - A DREAM OR FANTASY?

Easter Sunday marks this week with the observance of Good Friday. Easter Sunday will again see worshippers of people of various faiths gathered in church for their choice of services, and the weather permits will see fine displays of blue, white and yellow. Relatives will use the week for an estimate, and the weather permits will mark it as a joyful family reunion.

It is right that Easter should be a time of joy, but not always centered on the Christian church. The history of the Christian church is perhaps, in the light of the year (remember we mean Christmas), and if we stop and think, we find that just as we are on a calendar, and the beginning of the year, it has a profound effect on all our thinking and feeling. It is hard in a world, whose premises are based on material values, to suggest philosophy, or even that the church has provided us with more than just a holiday. Give us thought to Easter this year, and find where it fits into your pattern of belief and thinking.

WHY CRUELING AND NOT LAXN BOWLES

The crueling season, here as elsewhere, is reaching the end of its season. This year we have witnessed not carry over in the summer to the crueling season of last year, which has many of the attributes of the crueling season.

In crueling parties one can find the best of love, giving, and one can display there some of the enthusiasm that in the winter permeates the year.

WHAT EVER HAPPENED TO POLO AND LACROSSE?

In the early days of this province, and certainly in many other parts of Canada and the world, polo and lacrosse were the most popular sports.

EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

Color In Light Makes A Difference

Who is it that light makes a difference? It is the light that makes a difference in the way we feed our livestock. The light that makes a difference in the way we manage our livestock. JOIN FOR THE YOUNG APPRENTICESHIP

Perhaps because more young people are taking technical training, we do not see many endeavoring to learn trade schemes. Even in terms of one time, there was always one or two who started out as junior mechanics, some who followed the trade, and others who specialized trade schemes.

Will the Same Thing HAPPEN TO BOATS?

Over the course of one generation we have seen the railroad go from the small steamer to the giant ones that make the great bulk of our cargo. The changes to diesel engines or came as they saw massive tractors, and other products, using behind the nation's "twist" of the wheel.

Grand Slam in No Trump Moves

While visiting in Port St. Lawrence, a very enjoyable game of cards was played. A grand slam in no trump was made by J. H. Pearson and partner, Kathie Pearson. The declarer was not only a grand slam but also a perfect game. The hands played are shown here and the declarer was victorious. Jack says he is publishing this because the winners received a pair of size trophies from the Sportsman Club of the Lethbridge branch and thought it might stimulate interest in the game of people here. The game was played in the evening and the winners were given for their grand slam and perfect game a trophy from the Sportsman Club.

FISH AND GAME
AND CONSERVATION

Even in parkland country as nice as that in which we live there is more need of a firm took at the matter of conservation. One means of looking at this realistically, and at the same time giving emphasis to the hunting, fishing and sports for the hunter is the banding together in a Fish & Game group that will have some influence on the nature of things.

Some years ago the formation of such a body was instituted but lack of interest and apathy let it dwindle to a nonentity.

The association could do much in this area for fishing and game, and this could well reflect itself in the conservation of the area.

With Buffalo Lake a a command center of the whole area, and

water venting or lake whitebait, and with certain work done this could well become a haven for fishermen seeking fish. Netting regulations, and a study of the prenest fish problem in the lake should be able to be solved over a period of a few years. It takes the prestige and contact of a fish and game or a similar sportsman's organisation to get the case where it will receive some attention.

SOON CAMPING TIME

It is hard for youth to understand why people over the age of 50 don't relish the idea of setting out in a tent or without, and sleeping on an air

Most boys, and some girls, go through the stage of wanting to do this several times a season. The boys of outdoor camping will be strong for a long time to come as the population of the country continues its southward trend.

business will increase for the older people as they begin to enjoy the late year that are ahead of them.

Each year, U.S. Cross administers

HOW COME?

It is a known fact that most of the vehicle accidents today occur with the ages under 28 and as a result insurance to this group is high.

These same people, under 28 have had the advantage of test before licensing are much more familiar with vehicles than their parents, have passed all traffic regulations while getting their license. Most of the older group never had a test but have renewed their licenses every five years, and have a good non accident record.

Somehow this implies that either the tests mean nothing in improving their driving; that they pay no attention to the testing, that there are so many young people driving that the percent age of accidents seems higher.

It is a strange anomaly. ■

Cultural Festival of 1967—One will find in this volume, in every reader's chapter, the highlights of our cultural, social, economic and political life. The festival of 1967, as well, Canada's emergence as a power on the international stage can also be traced.

Work on the book actually began in 1966 with the writing of the table of contents, and its publication in Canada's Centennial year is in line of the standard "Canada 1967" series of the Bureau's official Handbook series. With an initial series of 10 volumes, "Canada One Hundred Years" has become the largest publishing project ever undertaken by the Canadian Government, and its publication is a tribute to the quality of any book published in Canada.

The volume is priced at \$2 with a reduction of 50% for purchases in lots of 10 or more. Copies are available in both English and French editions from the Queen's Printer, Ottawa, or by mail from the Queen's Printer, Ottawa.

WHOSE BABY?

For over two years the people of this area and the Lakehead and George districts in particular have been disturbed, and in some violent about the educational situation which has been in these areas, particularly after they have taken time and effort to present their case both before the Department of Education and the Department of Municipal Affairs.

We are not sure we are for or against the Cuba and Russia issue. We are not sure we are for or against the Cuba and Russia issue.

Survive some one about the education of these children in the past two years. We are not sure we are for or against the Cuba and Russia issue. We are not sure we are for or against the Cuba and Russia issue. We are not sure we are for or against the Cuba and Russia issue.

So to us it seems

Surely any group investigating the situation should have been able to determine how they had the country to com-

CASE OF THANKS

We wish at this time to express the thanks of the family for the many kindnesses expressed to us in most tangible ways at the time of illness and during our recent bereavement. Thanks is also extended for the many floral tributes and numerous cards which brought a great comfort to which we and husband and father was held.

During the past many weeks many people have given us

much in help, sympathy, and understanding, and made many things which seemed to be comforting as problems, but tasks that were much easier under the personal and warm demonstrations on all these occasions, with sympathy over the future of such, as much as they are.

Thanks

Leslie Miller and family

THE GARBAGE SITUATION

In spite of appeals and various proposals by the Town to the popular garbage situation in the Town is not all that we would want for good hygiene sanitation.

There appears to be no good garbage by-law, that is properly enforceable, as the time has come when the pertinent measures must be applied to remedy one method which has been talked off by various people, to inform the garbage collector not to pick up any refuse that is not in a proper container, with a lid. Perhaps then the people themselves would live of the garbage not being lifted, and it would cost them time and money to empty their own.

Perhaps then garbage can be treated properly - of proper size and build so that a regular service can be established on a time basis.

THE FLOREST HOUSE

It is unfortunate that the once-established florist shop and greenhouse has been allowed to get into the disrepair that it has, for here was a new and enterprising venture that could have and still can mean much in our town and district.

The situation was good, and the first year it was operated, there were some problems, but with this knowledge and some drive it is certain that at least for half the year a great deal can be done in this field.

It would appear that if some one on a regular part time basis could be put on this venture then it could become a real success story in the spring of the year when everyone is planting plants.

All of the facilities for running a good greenhouse are here, and the sooner one gets started in renovation and improvement, the sooner it will come into being and become another thriving business in our community.

CAR COLORS

Most of today's cars have run the full range of color from black to white and all the primary colors, and two tones of these. In recent years most of the colors have been subdued and the buying public are going for straight, one piece color with attractive interiors.

We read recently where it was believed "If a plain color car is equipped with old make or date of a contrivance, color is similar to the car. It sounds as if some of the modern artists have got hold of the color market and are trying to influence the trend. In any case car manufacturers are having quite a time trying to come up with something new that will also have an appeal. Certainly some of the colors of past years have run the limit. People with too much to spend are buying their cars for buying many products on the selling power of color and they are completely missing the point of what they are buying.

THE MAN WHO NEVER MADE A MISTAKE

An anecdote from a recent issue of Newsweek magazine is the interest of those who have driven to work having been running late, who never arrive, who never make a mistake in an error in order to advance himself and his company.

A great number of otherwise successful men never seem to be above a certain level. They seem to have a double fault of never being able to make a decision, choose they never want to make a decision, choose they never want to make a decision, choose they never want to make a decision.

In this age of movement and fast service more and more business people are turning to the plane to get their goods and services, and every town and district should want to start by assuming the possibilities of what a plane can do. The cost of a plane is not as high as you think it is, and the time to get it is not as long as you think it is. As popular as automobiles. When the time comes the city will be "flying". Did not take up on time tonight in the city.

THE PARKING SITUATION CAN IMPROVE ITSELF

Everyone who has a car knows how much of the time when in town they were taught when they procured their license, then we would have to go to 8 to 10 parking spaces on each car. The town has seen to it that the sidewalks are marked with parking indicators in yellow paint, yet each day one can go up and down and count the number of misplaced vehicles. Some are straddling the line; some are more than crowding it, so that when another driver comes along he takes a normal space and a half space or more is lost. Drivers, who want parking room must be courteous enough to park in spaces already so that others too can enjoy the privilege of having a place to park.

SUMMER IS ABOUT PAIR

Living in the prairie province of Canada has much to offer most of the time but when one thinks of the shortness of the real summer season there is a tendency to put it off, as if we were about to die.

This year the season was late, and gardens and flowers hardly had time to bloom before one was expecting one's first frost. Indeed in some areas a night frost had already been experienced. It hardly seems worthwhile to get the seed, the soil and the trailer out without doing a great deal more. And certainly the gardener doesn't get the opportunity to try his prowess at least for half the year a great deal can be done in this field.

But don't be so pessimistic. After all winter is coming, and there will be plenty of opportunity for eating.

Such is the continental summer, such is the continental summer.

WHAT WILL WE NAME HIM

Oh, HENRI -

In recent years it has become apparent that many young couples who are expecting their first child, or are in the process of making one are always on the look for new suggestions. The names of the children are always being suggested, and the names of the children are always being suggested, and the names of the children are always being suggested.

Don Lambert
Frances Sodenky

Don Lambert, an active old timer of the area, died Tuesday at St. Mary's hospital. He had passed away after a long illness. He was born in Canada and had been visiting his brother Louis of Chicago.

He was born in Wisconsin and moved with his family to the Ontario district where he had been the owner of a business. He was a well-known figure in the community and was well-liked by all who knew him.

He is survived by his wife, Mrs. Lambert, and two daughters. The funeral will be held at St. Mary's church.

AUCTION MART OPEN AGAIN

This week the Bashaw Auction Mart again opens its doors to the business of a mart and all would hope that in the days and weeks ahead it would have the greatest support that it has ever had.

Max and Albert Selin have taken over the reins of operation and Mr. Ron Hargreaves is to be the auctioneer, according to an announcement made last week.

Bashaw is situated geographically in a good position for such a mart providing there is good sound management of operation. It is in such a way that many of the larger and more successful markets come into being, and looking at the potential here, there does not have to be an exception.

Residents of the area should do all within their buying and selling power to see that such a handy mart to this location close to home.

There are many advantages to be gained by not only the buyer and seller but by the community as a whole, and every market should be a booster.

Things we can do for ourselves in our own areas, are among the best things that we can do for society as a whole. No one town or district can be entirely self-sufficient or even self-sustaining, but corporations such as the mart must disseminate many active and attractive to all.

Let's really make it go!

WHOS FOR BUFFALO STEAK?

The editor for readers for the purpose of buffalo from the Government of Canada, appearing in last week's daily papers is certainly a reversal of the white man's trail after the buffalo. Now that we have the buffalo we are prepared to sell them at a reasonable figure, perhaps because of the increasing demand, and the fact that the white man would like to have a very high fine apartment or a big plan around a tomato for his garden.

In any case the buffalo are for sale. It may be that caretakers for the great love of the prairie were here to come by or he may have failed to be registered for unemployment insurance, Canada Pension Plan, baby bonus or welfare. In any case a representative of buffalo are for sale.

The matter that bothers us of course is that if we can believe reports the Indians primarily the northern tribes are suffering in some cases from malnutrition and poverty. What is wrong with giving the Indian back the buffalo, and seeing if somehow he can recover some of the prestige and spirit which he once had, and at the same time do a job for his government. If as the Indian legend, buffalo can be successfully hunted, then what is wrong with great buffalo ranches operated by the native Indian. After all the buffalo and Indian had a match partnership 100 years ago and surely the Indian has been as successful with the buffalo's habits. If anyone is to do anything with buffalo then it should be the Indian.

WHITHER RECREATION

Recreation, which is really recreation, is just baby coming into the world, and only now (perhaps for good reason) governments are becoming more and more concerned.

Recreation, which at one time was mainly covered with holidays, playgrounds, and used to be known as perhaps pastime, hobby, was now given a reputation as much of it was for a child. It is hard to see the recreation picture has become a family affair, and in some cases organizations have become concerned because of various kinds of camp facilities.

Certainly setting up recreation under the Alberta Youth Department should be a good effort.

Thus with recreation becoming more and more the concern of people as well as governments more and more facilities must be provided by individuals, organizations and governments.

Each year in this area about one out of every three people are in the business of a mart and all would hope that in the days and weeks ahead it would have the greatest support that it has ever had.

Children's Corner

CHILDREN'S CORNER
 Little Tommy had a pet rabbit. One day, he was sitting on the grass and saw a very small, white rabbit. He was so happy to see it that he ran over and picked it up. He held it in his arms and it looked so sad. He knew it was lost and he wanted to help it. So he took it home and hid it in his room. Every day after school, he would go to the back of his house and look for it. But it never came. One day, he was sitting on the grass and saw a very small, white rabbit. Brings E'dorade

It was better than any TV program he had ever seen. He was sitting on the grass and saw a very small, white rabbit. He was so happy to see it that he ran over and picked it up. He held it in his arms and it looked so sad. He knew it was lost and he wanted to help it. So he took it home and hid it in his room. RECREATION AND RUNNING

The recent meeting with the Dept. of Youth officials in December, the contact made with the Chamber of Commerce, and a proposed meeting for January 10th, in the matter of recreation in the area and a possible bond of the area are being set up for the district as an intent establishing the same that the gift to the district and certain letters to the field of the district, whether it be for the young or the old.

The purpose of the bond is broad, that it would have a liaison and give direction in all fields of recreation including the cultural, sports, intellectual and a host of other fields.

A well organized year round district will give great progress in a town of this size, and it is the duty of the district to encourage individuals and companies another reason for choosing the district in which to work and live.

THE SNOW REMOVAL

The move this week to remove the snow from the streets is a move that the town's snow removal was able to cope with the snow that was prevalent from the recent storm was just another indication that where there was a will there was a way.

It was a good piece of business to use the town's available equipment and manpower, and just enough to show that the town's snow removal machinery does not fail.

THE SNOW VELOCITIES

With the coming of the New Year we were given a number of licenses of one kind or another would be imposed on snowfalls of all kinds. The snowfall that the town's snow removal was able to cope with the snow that was prevalent from the recent storm was just another indication that where there was a will there was a way.

We have talked with quite a number who have visited in countries in Europe and the snow they have seen is not the same as the snow that we see here. The snow that we see here is not the same as the snow that we see in Europe.

WHERE DO WE GO FROM HERE

Over the past few years Bashaw has had many of its residents born and raised in the town. Many of these residents were born and raised in the town. Many of these residents were born and raised in the town.

MANY THINGS DO NOT CHANGE MUCH

In spite of the world of electronics, and automation, and new discoveries there are many things which we have today which have been with us for a very long time, and which do not seem likely to be displaced by anything new in this generation.

The clothes pin, the safety pin, the baby pin seemed to have reached the ultimate of their creation, and although there may be some decrease in the use of the safety pin due to the still one wonders just how long these tiny items of almost insignificant value, can retain the popularity they have built.

There is one thing certain, that any automated machine is going to have one awful time attempting to change a baby's diaper for there is no mathematical equation that can tell when this will happen, except perhaps a number.

Women who wash clothes (most of them) do have intimations that all the new fashioned ideas about clothes pins have never changed their ideas about them. For the old fashioned (the kind you hold in your mouth) have always been the most popular.

There are baby clothes pins - and fifty or twenty years or more, we still see the women and the daughter using them in spite of the many new designs that have come along for their styles. It seems that if you invent something simple enough, that has a knack of "catching on" it will go through two or three or more generations.

For people, in many things, stay close to change.

The same, of course, applies to automobile washers and dryers. We suppose there are thousands who will still prefer the wringer washer. And the dryer. There are literally hundreds who do not know about the automatic. Such is the progress of an atom; and electronic age there are many thousands who do not know about the heater.

The standard of living in Canada in many parts is not what advertisers and executives of large companies believe it to be, particularly in the rural areas where people buy something when they believe they can afford it.

FROM THE FILES OF THE BASHAW STAR OF 1917

Whoopi, No. 1 Northern was registered in 1917. It was a black, chestnut face and was owned by one of our readers.

Merrill and Hight had just purchased a new team of colts and was highly pleased with them. The colts were from the Moore Lodge of Bashaw last week.

Prison Ship had been very busy with the 40th anniversary of the Moose Lodge of Bashaw last week. The celebration was noted that John Cameron, was the only 40th year member of the lodge to be present.

There were quite a number of 25 year members at the celebration. One thing of real note that has come out (as it does in all organizations) is that during the toughest times there were those who held on.

About Town

Mr. Hickey Knudsen stayed with Mrs. Della Hickey on Thursday.

Mr. Henry Hickey of Calgary was home on the weekend.

Saturday visitors with Mr. and Mrs. J. A. Miller were Mr. and Mrs. Don Briggs and Mrs. Janet Hunsinger of Edmonton.

We have just received a copy of the first Calgary Star, an interesting tabloid size paper that reflects the emotions of the new country which is just opening up. From Edmonton it is not far from home and we are sure that it will be read by a large number of us and read by the town.

On Tuesday Dr. Biles, from St. Paul, Minn. and his wife, Mrs. Biles, arrived in town. Dr. Biles is a well known physician in St. Paul and has been in town for some time.

Mr. Barry Brown, an RCMP constable, who has been in town for some time, has been transferred to Regina and will be leaving for Regina on Thursday.

Grade X Play

Extended again, as usual, with a first class play, the members of the Bashaw High School Dramatic Society last week presented the efforts of drama to the town.

It was the grade 10 in an evening session which showed that after the adaptations had been put on by the members of the school that they still had a balance of 12.18 on hand.

John Schmitz, Darlene Madsen, and others were the stars of the play.

A LESSON IN DEMOCRATIC AND SOUND BUSINESS

YOUTH SHOWS THE WAY

Last week's editorial on the youth of the community was not a Senior Students' Union victory. It was a triumph for the youth of the community. It was a triumph for the youth of the community. It was a triumph for the youth of the community.

In fact, that was but a small part of the story. The youth of the community have shown us the way. They have shown us the way. They have shown us the way.

With the population of Canada being 50 million, the youth of the community are a vital part of the future. They are a vital part of the future. They are a vital part of the future.

The fact is that the youth of the community are a vital part of the future. They are a vital part of the future. They are a vital part of the future.

These young people are a vital part of the future. They are a vital part of the future. They are a vital part of the future.

We are all young people. We are all young people. We are all young people.

Let's have more young people taking more part in our local affairs. Let's have more young people taking more part in our local affairs.

There are some things which we can do to help the youth of the community. There are some things which we can do to help the youth of the community.

Sometimes it seems as if we are too old for this and too young for that. Sometimes it seems as if we are too old for this and too young for that.

COKE - D CHIPS

We feel value ever comes out of effort and sweat, in the adult opinion, that is true.

But what comes out of it from the standpoint of the young people, in a social conversation, and the talking of the mistakes of the adults.

In addition to that, you may ideas that evolve are evolved over a bottle of pop.

This is the same code as the coffee break with adults.

Someone once said that more business was done on cigarette pauses and more deals talked over a cup of coffee than this world ever dreamed of.

The code book is the same as the coffee break and gives the same revolution to the young people.

THE UTILITY MEN

For days on end it may seem that we are unable to keep contact with the young people, but eventually you get them. The young people are a vital part of the future.

THE GOLD BALANCE

The average citizen understands nothing that is going on in the big financial circles of the world in relation to the buying and selling of gold.

All he is concerned about is that he does not get taken for a ride by the price and that things go along so that he can keep his money in the bank and that he can get the kind of interest he needs to live well, warm, and comfortable.

Many fail to realize that what is happening today, is a prelude to what is coming tomorrow.

"I say 'Lay not up your store' for the day is never sure."

Purchase within the next few months we will have ample opportunity to realize just what is happening.

We are not pessimistic, but there comes a time when values must be placed against value. We think that the time has almost arrived.

JOIN UP FOR YOUR OWN GOOD!

A town without an opinion is a town dying! A town divided will die of its own accord and by the fate of the town of its own accord.

John W. J. Galt, the head of the membership committee of the City of Commerce will be lecturing on an eventful journey for membership.

There is no argument. If you do not feel that your voice is heard or important, then don't expect the benefit.

The Chamber of Commerce, at least at this time, is the only united voice that the people of this community have and it can express their most effectively. If it desires, and is excited to do so, it can make a difference.

It is the one most united voice that the people of this community have and it can make a difference. It is the one most united voice that the people of this community have and it can make a difference.

If only one project a year is accomplished, then the effort has been worth it. It is the one most united voice that the people of this community have and it can make a difference.

Join up to it! Together we can do great things! Alone, we may fail!

A LESSON TO LEARN

My wife has always accused me of being, at night, a pessimist.

And now looking over the situation in the 50 odd years we have lived in Alberta, one can see this even out of character came many things.

The Social Card movement, whether we believe in it or support it or not, is another example of how things in some of the most disastrous and how things that this country has seen.

The last years were years when new unpleasantness were developed when people began to see a new way of living and when we started to emerge from ourselves.

We began to think in terms of a provincial people until we applied all the success to ourselves.

Perhaps it is time to turn to the next chapter and see what we have done with what we have had.

Perhaps, this time, the fault lies in us. Perhaps, we can remedy it.

Perhaps not.

It is clear to those who experienced the thirteen that more than half is known upon our economy.

It is also clear to those same people that we have a road ahead to go.

Young people may not know what we are talking about, but they will experience it, for sure!

And they will be better for the experience.

TALKS WITH COUNTY

During the course of the past week two delegations have met with the Oan County to discuss matters mutually important.

In all cases there appeared to be no misunderstanding, and the lines of communication were better than they have been for some time.

It would appear that new understanding has been developed as to the needs and mutual needs can be satisfied. There has been a new and better understanding of the needs of the county and the needs of the town.

The move seems a great deal of work on the part of the members, but will bring much satisfaction and joy to the angling residents of the area.

Good work, Mirror, you've done a good job and well done.

THE MIRROR RESERVOR

The recent move on the part of the Mirror Fish & Game Association to reserve the Mirror Reservoir and stock with fish is a commendable one and one that will give impetus to the average angler to get out his lure and prepare for the fishing season.

THE MIRROR

The word has always been a mystery to me, and even after a decade of years has yet to find some meaning to me, and the meaning that it has, is of no use to me.

For hundreds of years man has tried to understand and harness the weather, and the clouds that are part of that vast system. In some instances it has succeeded but with the wind he has had to fight it.

There is a lot of talk about rain, and the clouds that are part of that vast system. In some instances it has succeeded but with the wind he has had to fight it.

There was a day when a potato was a ball, masher, or French vegetable but today it comes in a variety of forms and is no longer a vegetable.

The potato is a vegetable, but it is not a vegetable in the same way as the potato is a vegetable.

THE IDEA IS SPREADING

On previous occasions we have commented on the fact that one day people would be seeking refuge from urban areas and looking toward the rural areas for living. This has been moving in part to a point where it is now taking place from the Christian Science Monitor in Boston, reported in the use of the world's newspapers is beginning to reflect our thinking.

A few continue in the world to have such a contrast between the cities and the outlying countryside as in the United States. Let us see an opinion. Fly over almost any American city and you will see the dense conglomerate of streets and buildings. Let us fly over any of the rural areas. In almost every village you will see a landscape that appears largely unutilized, grass with weeds at scattered spots open fields. From a train to take our passengers, another city, or more, but we must pass, America, is a vast, underutilized area of open space, particularly in these areas given over to intensive farming.

In there not many that this vast resource of land to be made to make it more planned for their crowded cities. The United States is now more than 70 percent of the land, only 10 percent of Americans live in a recent Gallup poll that they would prefer to live in the city.

Can we make it more ideal to reduce nations in the countryside to the present situation to be in rural areas and looking toward the cities? We are certain that such moves could be made, if the urban areas willing to downsize the cities, but not many are willing to do so.

One first step, it seems to me would be to do up a truly efficient transportation system from the city to the countryside, such as in Japan, and Great Britain. In both countries long distances are made in five long distances from their urban centers to the countryside. There are numerous facilities in the United States where a similar transportation system could transfer millions from the crowded city to the rural area of the countryside to meet their living conditions.

We hope that the Department of Housing and Urban Development could consider this in a greater situation of America's open spaces, urban centers, and the United States.

THE FOREST FIRE HELP

With the disastrous forest fires raging on in Alberta, the damage done, the property they have put out of work, the tragedy that they have caused.

In Alberta, just as in all and many more people, but when such a natural disaster strikes, we do not seem prepared for it. We have, and we must have, and it is to help that will check the spreading path of destruction. We can take other instances of years back when businesses were closed by fires from a fire and the men were said to be go-away.

It seems to us today that with the tremendous numbers on welfare, relief, and other programs, that a system of co-op for an emergency fund to be used in such a disaster, such as the burning area, or service units, could be set up. The army, army and we have already a well defined one for law breaking and hunting, but no matter where we live, and certainly these kind of fires come under the category of the country.

Sometimes we are always depicting what we have when a job is to be done. There may be many objections, but here is a real reason why they are not good, who would benefit by raising a few dollars a month.

There might be many other ideas learned at the same time, but the instant danger is disaster, not matter how you find it, and courage is courage, even on a few dollars.

Can't remember and leadership will come to us, we would be looking for them. We have this kind of a job-up as we go along.

THE OLD STAY CLUBS

What ever happened to the old clubs that were once so popular? It was not a happy reality, for everyone contributed very much, and one and a month was drawn for us. We do not know of anyone who has been in a club in a year.

Why don't we have a club, with 100 people in it, and a draw made each month? If we do, there would be some who would go to it. The first year, but we might have a club in a month if he believed a club was at it.

THE RESERVATION FOR THE CONTINGENT With this kind of one you can see the great advantage that an ANDRA travel development using hotel money to reserve rooms in the United States.

The whole scheme which has been initiated in various ways by donors, may have to come to a halt. The whole scheme which has been initiated in various ways by donors, may have to come to a halt.

A HIKER'S CLAIM For years there have been hiker's clubs in the mountains, in the Canadian Rockies, and in the United States. They are taking in a hiker's holiday.

It is no more after the Canadian Rockies with its scenic views and its peaks of the valley of a hiker's club.

However the unbelievable story they do have in given leads to a point where to do some thing in it, and then the hiker's club for shorter distances, that they might more easily and at a distance, would be the same as the hiker's club.

Such things must be seen while driving in a car, or someone at the viewpoint and then the hiker's club, in a few seconds and quickly too, the better to observe the things about it.

Certainly those who were on the walk for any distance, however, must have observed them. They were all on the way. They were all on the way. They were all on the way.

THE RACERS Two or three groups comprising three or four each, have been making a name for themselves in the stock car races in Bow, Alberta. They are making a name for themselves.

Taking the week and money in many cases and running up points, as well as holding the local car races. They are making a name for themselves.

It is not a new age but a new age, and it is not a new age but a new age, and it is not a new age but a new age.

Get out and support the local boys when they are hitting the race flag.

WHAT HAPPENED TO ALL THE WILD FLOWERS In the many years ago that one could go for an evening with wild flowers that we have in Alberta, and come home with an armful of wildflowers, tulips, daisies, crocuses, bellies, bees, among stars, crocuses.

A dozen other varieties of nature's own wild flowers. In his effort to preserve the wild flowers, he has been in a real way, but he has been in a real way, but he has been in a real way.

Wade Sempson, Centerville, 17, is in University hospital in Edinburgh after having been injured while making his way north of Edinburgh Sunday evening on his motorcycle.

The Besshow ambulance was called and he was taken to Besshow General Hospital for treatment.

The day turned out favorable for the *Madame Jean's Open Cup*. Tournament held last Sunday at the Harbor Club, the weather was on the bay of the lake south of town. Heavy rain was on the air, a constant heavy rain spelt against the wind.

Murray Whitebottom who is a consistent winner again topped the championship fight with R. Tremaine, the runner up.

THE TIME IS COMING

While ruminating this week we noticed the traffic many times was impeded by the trucks, campers, and trailers. It was a pity that we were unable to maintain the same pace as the cars.

The time is coming when we have to have some type of vehicle to maintain a steady constant flow.

These other time trials were almost on the straight of way as well as the by-pass trucks, campers, and trailers on the highway, but the plenty of time.

PORTABLE GAS

It would be convenient, and convenient, as well as entertaining to be able to move from one location to another in the same kind of vehicle with some ease in another part of the country for each year. This is why we might want to have a portable gas station.

The day of a vacation would be saved. The day of a vacation would be saved. The day of a vacation would be saved.

WATER, WATER EVERYWHERE

When we saw the mighty rushing waters of the Colorado and Fraser river systems cutting their way to the ocean we wondered how the world there could ever be a shortage of water anywhere in Canada.

While seeing the various power plants and water conservation projects, and purchasing this with the amount of water still running in the Colorado and Fraser rivers, we were amazed at the amount of water that was being used in the world.

Politics a major problem

As Dr. W. R. Dymally of the Ontario Liberal Party, Ontario, says, "The problem of establishing a political party is a major problem. It is a problem that is faced by all political parties. It is a problem that is faced by all political parties. It is a problem that is faced by all political parties."

When reviewing the United Front Bill, we have been reminded of the fact that the Bill is a piece of legislation that is designed to give the government the power to control the media. It is a piece of legislation that is designed to give the government the power to control the media. It is a piece of legislation that is designed to give the government the power to control the media.

Every thing that can be done to provide a better life for all of us is a good thing. It is a good thing that we should have a better life. It is a good thing that we should have a better life. It is a good thing that we should have a better life.

EDUCATION AND TEACHERS

No suggestion of a strike in the city and the teachers' union is not making any plans to strike. The teachers' union is not making any plans to strike. The teachers' union is not making any plans to strike.

The Minister of Education, Mr. Robert Clark, pointed out that when we talk of education we mean to say that we are talking about the future of the country. We are talking about the future of the country.

With this kind of effort being put into it, we can be sure that the future of the country is in good hands. We can be sure that the future of the country is in good hands.

Even at times as small as Bashaw could contribute to the future of the country. Even at times as small as Bashaw could contribute to the future of the country.

At the time of this kind of contribution, we can be sure that the future of the country is in good hands. We can be sure that the future of the country is in good hands.

The House is divided on one of the important issues. The House is divided on one of the important issues.

The County Director did point out approximately one of the reasons. The County Director did point out approximately one of the reasons.

Maybe we would rather have a small machine than a big one. Maybe we would rather have a small machine than a big one.

What are the objections to this machine in the high school? They may be as they would be in the high school.

There perhaps it may be as they would be in the high school. There perhaps it may be as they would be in the high school.

Heard the answer be the same as we had a dispenser for hot chocolate, soup, milk and cream?

HEATING AND FIRES

With the continued high cost of coal and the fact that the weather is so cold, it is not surprising that many people are looking for ways to save money on heating.

In this kind of weather it would be most difficult to keep a fire going in a fireplace. In this kind of weather it would be most difficult to keep a fire going in a fireplace.

Don't be a fire warden - be a promoter.

MAKE A REAL PIG OF YOURSELF

"MAKE A REAL PIG OF YOURSELF"

That's the new Challenge for every pig in Canada

THE MEAT TYPE HOG AND THE NEW HOG GRA DING SYSTEM CHALLENGE EVERY ORDINARY HOG AT THE MARKET PLACE. NOWADAYS, EVEN IN A PIG'S WORLD, YOU HAVE TO BE GOOD IF YOU'RE GOING TO MAKE THE GRADE. SO NEXT TIME YOU SEE THAT MAN WHO LEANS OVER YOUR FEN TO FEED YOU, WHY NOT ASK HIM WHAT HE PLANS TO DO TO HELP YOU MAKE THE GRADE AT MARKET TIME. ASK HIM IF HE'S TALKED TO THE FEED REPRESENTATIVE FROM UNITED FEEDS ABOUT UNIFEED. CHANCES ARE THAT HE HAN'T HEARD ABOUT IT YET, BUT DON'T BE TOO HARD ON HIM BECAUSE UNIFEED IS JUST NEW ON THE MARKET AND EVEN GOOD NEWS TAKES A WHILE TO SPREAD.

CHANCES ARE HE'LL SAY

WHAT IS UNIFEED?

WHEN HE ASKS YOU THIS... DON'T GET EXCITED, JUST QUIETLY TELL HIM TO GO SEE THE UNITED FEEDS REPRESENTATIVE TO HAVE UNIFEED EXPLAINED TO HIM. OR MAYBE JUST GIVE HIM A HAND. TELL HIM BRIEFLY "UNIFEED - THE PROGRAMMED HOG FEEDING SYSTEM FOR THE MEAT TYPE HOG" IS THE ANSWER TO SUCCESSFUL HOG FEEDING. TELL HIM THAT UNIFEED CAN'T CHANGE HIS HEREDITARY CHARACTERISTICS, BUT THAT IT WILL BRING OUT YOUR MAXIMUM POTENTIAL FOR DEVELOPING THE MEAT TYPE HOG.

SO, IF YOU'RE AN ORDINARY PIG - "WHY NOT MAKE A REAL PIG OF YOURSELF" - UNIFEED WILL MAKE THE DIFFERENCE.

The representative from Guatemala stated that they had no objection to the Expropriation by law, but requested that before construction of the road, that they be informed, in order that they might mark the location

The representative was informed that the Department of Highways would be building the road, and no doubt the Highway Engineers would be contacting the Oil Company in this regard.

It was decided we request the Department of Highways to carry out tests in the vicinity of Sections 26 and 27-46-30-W to determine if it would be feasible and economically sound to construct a road and locate a bridge crossing that area, and the results are affirmative, accurate if in the Department of Highways.

Secretarial Science at Red Deer Junior College

Should you invest time and money in a business program?

Business is the largest occupation field in Canada today. Without specific skills and appropriate background, therefore, employers hesitate to hire personnel without specific skills and appropriate background. Business, industry and government require highly trained personnel.

Business is employing more college graduates at higher salaries each year.

Business training enhances success on the job and thereby increases promotion.

Business Science Certificate (one year)

Purpose: To give the student a basic knowledge of Business Administration, thereby giving him a distinct advantage in the labor market.

Business Administration Diploma (two years)

Purpose: This program is designed to give the student a complete and intensive exposure to Business Administration and thereby prepare him for Junior Business Science.

Instructors: Four well qualified instructors each having an M.B.A., will offer instruction in business science.

CONSIDER THE ADVANTAGES OF A RED DEER JUNIOR COLLEGE EDUCATION

-good teaching - effective counselling - Consequently small classes - opportunity to participate in co-curricular activities and student government - substandard facilities - low tuition and living costs.

A SHOVEL FULL OF TROUBLE!

Hold it right there! One more snag with that shovel and you could cut clean through an A/T telephone cable! It's easier than you think. You dig post holes or a trench in your back yard, and before you know it the damage is done, you've severed a buried cable... severed vital communications to business; to hospitals, police and other emergency services.

Right now, before you take one more sweep with the shovel, dial "0" (Zero) and ask for Zeph O'Dell. An AGT Technician will mark off the exact location of any buried cables and save you and others a great deal of trouble, expense, even involvement in law suits!

Remember, in town or country - a call in time can save the line. AGT's Free Cable Location Service - Dial "0" or ask for Zeph O'Dell. Toll free of course.

MOON LANDING OUTCLASSES ALL NEWS AS COSMONAUTS MAKE WAY HOME

Whether also men mistake-
ingly dare in this corner? The
pointing of two men at the noon
day first, 1908 will remain as the
strongest highlight.

At 7.35 p.m. Moll Amerong,
and Hans Ahlert sat down fast
on the couch; and as never a
credit is due to the man who
has been guided by Columbia
waiting for their cause.

It was an epoch making deed,
and does not bear to have
any more, now that "We have
done it" within our lifetime.

It is matter of record and
truth must be recorded. It
was done on the day July 26, 1908.

The return of celebrated
Thursday afternoon, and
the work and all will be waiting.
How can three actresses
it up such a tension in 1908, and
member?

It's wonderful!

THANKSGIVING 1969
With Thanksgiving Day just passed many are wondering just what in the world we have to be thankful for, considering that all the problems that it is to appear to almost insurmountable this year.

But you cannot be thankful without reflecting on a wider scope than our own.

When one does this then there grows an appreciation of many things that have become so much a part of our living that we forget them.

Compared to most of the rest of the world Canadians enjoy to have more to be thankful for than most. Just think!

NO REMEMBRANCE DAY SERVICE

With this paper that week the have the remembrance day from the Legion that day of lack of membership support will be no Remembrance Day service or dinner and social as has been the usual custom.

This will come as a distinct surprise to many who have been told that the Legion has only been with regard to Remembrance Day.

It is unfortunate that the only organization having standing directly to the needs of veterans and their dependents should have been let down in this point, that the annual service to be made, but planning for such an event must start ahead of time.

We would hope that at the next Remembrance day held for two days after Remembrance Day that there will be sufficient interest to ensure that the Legion will carry on.

After, and to the battle!

Downey Says Present Aid Only Hope Now

REPORT FROM PARLIAMENT
By J. C. Downey, M.L.A.
I spent most of the summer on the farm, and had to sit the best place in the room after a year in Ottawa.

I attended a scattering of events around the country during the summer, was present at the opening of the new M.P.'s' house in Alberta to attend the British Association of Agriculture in September.

I have not, however, been speaking with the great crowd over the past year, but after attending the Conference on the future of the farm, the development of further agriculture, and the future of the farm.

I am convinced that I felt a little better. Certainly, though, the future in the farm is not bright. It looks like it will be a long time before the government will be able to do anything to help the farmer in the farm.

THINK ABOUT WHERE YOU CAN FIND THE BEST selection of gifts (and the best values) in the shortest time with the least effort. THINK ABOUT THE FACT THAT YOUR IMMEDIATE KNOWLEDGE of a wide, unlimited array of gifts for everyone at prices as low as 50¢ takes you to Sears-Roebuck. Lower overstocked than those in large department stores. THINK: Ask yourself what you should invest for and what (total money but not time) you should spend for gifts, when your best buys are right before your eyes.		THINK ABOUT WHERE YOUR GIFT MONEY DOES AFTER YOU SPEND IT. MONEY SPENT OUT OF THE POCKET is all your money as far as your community is concerned. On the other hand, much of the money you spend at home pays in taxes, where it accumulates into investments and programs that pay you back in the satisfaction that mankind has always desired. Pay household, electric and other utilities that make this a BETTER COMMUNITY FOR YOU AND YOUR FAMILY.

"Do you have that warm feeling? - Maybe you've got that feeling!" so runs the old commercial for iron pills. Surprisingly, it can be difficult to get adequate supplies of iron unless you make an effort to include iron-rich foods frequently in your diet.

Iron forms an important substance called hemoglobin in our red blood cells. Hemoglobin is responsible for the rich red color of healthy blood. It picks up oxygen which we breathe in, and then carries it to every cell in our body. Without each cell, the oxygen is used to produce maximum energy from the food we eat.

6. And it was, that while they were there, the days were accomplished, that she should be delivered.
7. And she brought forth her firstborn son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn.

BORN LEGEND

Robin Redbreast, parent bird of the Christmas season, has been associated in legend with Christ, and then with Christmas.

It was told long ago that the bird attempted to ease Christ's suffering on the way to his crucifixion by pulling a thorn from the crown. According to the legend, a drop of blood fell on the robin's chest and remained there forever.

That explains why the robin was a symbol of redemption in the late 19th century.

CAREFUL SHOPPING

Don't be in such a hurry to do your shopping. You may be able to save money and disappointment by taking more time.

Many things are bought on credit or by instalment. You pay usually at least 18 per cent interest on credit charges and sometimes more. It's better to borrow money from the bank or credit union than to borrow from a finance company. You'll save money by buying.
